

Business Analyst (Entry Level)

Location: Hyderabad (On-Site)

About Acuitas360

At Acuitas360, we are a specialized life sciences consulting firm passionate about advancing patient outcomes through innovative use of data and insights. Our Insights & Analytics team partners with leading pharmaceutical and biotech organizations to address complex commercial and clinical challenges by leveraging real-world evidence, predictive modelling, and deep domain expertise.

We foster a culture of ownership, continuous learning, and innovation—empowering consultants to shape how healthcare data drives smarter business decisions and better patient care.

The Role

We are seeking a Business Analyst for entry level candidates to contribute to high-impact projects across the life sciences sector. This role requires strong problem-solving ability, intellectual curiosity, and the drive to transform data into actionable insights that support strategic client decisions.

You will work closely with senior consultants and clients, taking ownership of project deliverables, applying advanced data techniques, and presenting findings that directly influence commercial and clinical strategies.

Key Responsibilities

- Take full ownership of assigned deliverables, ensuring accuracy, quality, and timeliness
- Evaluate the effectiveness of clients' sales and marketing initiatives, modeling their impact on business outcomes and patient reach.
- Develop data-driven optimization plans that guide strategic decision-making and enhance business performance.
- Translate complex data findings into clear, actionable insights and present them effectively to stakeholders.
- Continuously expand technical and domain knowledge to apply best-fit methods and generate meaningful insights from client data.

What You Bring

- **Technical Skills:** Proficiency in SQL; working knowledge of R, Python, or SAS for data analysis and statistical modeling.
- **Education:** MBA, MSc, or equivalent; background in Engineering, Life Sciences, Pharmacy, Statistics, or other quantitative disciplines.
- **Mindset & Attributes:**
 - Strong problem-solving and structured thinking ability.
 - Intellectual curiosity and a passion for improving patient outcomes through evidence-based decision-making.
 - High attention to detail, quality-driven approach, and client-service orientation.
 - Proactive, self-motivated, and comfortable taking ownership of outcomes.
 - Excellent communication and presentation skills with the ability to build trusted relationships.
 - Consistent track record of academic and professional excellence.

Why Join Us?

At Acuitas360, you will:

- Work on projects that shape critical decisions in healthcare and life sciences.
- Learn and grow in a collaborative environment that values innovation and thought leadership.
- Make a real-world impact by enabling better decisions that improve patient outcomes.
